

Community Open House

City of Tumwater Shoreline Master Program

Thursday, September 29, 2011
Drop in any time from 3:00 to 7:00pm
Tumwater City Hall, 555 Israel Road SW

Hosted by: Tumwater Planning Commission and City staff

Planning for our Shorelines

The City of Tumwater is updating its Shoreline Master Program. Whether you own a home or business on a shoreline, river or lake – or simply enjoy the waters in our community – how the City manages our shoreline matters to you!

Find the Shoreline Program online

Visit the City website (www.ci.tumwater.wa.us) and click on Shoreline Master Program under “Emerging Issues.” You’ll find the Draft Program, as well as a summary and PowerPoint presentation describing the Program.

We want your input!

The Tumwater Planning Commission has spent this summer preparing a Draft Shoreline Master Program, and now they want your input. The Program will guide future development along the shorelines of the Deschutes River, Black Lake Drainage Ditch, portions of Percival Creek, and the following lakes: Barnes, Black, Capitol, Munn, Susan and Trosper. ***The Open House is your opportunity to share feedback!***

Unable to attend?

Even if you can't attend the Open House, we want to hear from you! Please send a short email or letter with your input.

For more information or to provide input, please contact:
