

## Neighborhood *CrimeReports* Service Now Available

Tumwater Police Department is pleased to announce the free on-line Crime Mapping Service. You will now be able to view what type of police activity has occurred in your neighborhood or anywhere City-wide. Various tools allow you to choose a date range, crime type or specific area to view. Your data will include the approximate address, date, time, type of crime and the police case number.

The analytical section shows crime data in a table or on a graph. (Be sure to select the correct jurisdiction on the left of the Analytical screen).

You may also sign up for automatic email notifications any time specific types of crimes occur in your neighborhood.

Olympia, Lacey and Yelm Police Departments are also participating in this free service. You will be able to access their crime information at any time. Once you are at the website, click on WA State and choose the City you wish to review.

You can view the website at [www.crimereports.com](http://www.crimereports.com)
