

2010 Water System Plan

April 2011

Prepared by:

HDR

In Association With:

Pacific Groundwater Group, and

Confluence Engineering Group

**City of Tumwater
2010 Water System Plan**

April 2011

Acknowledgements

City Administrator

John Doan

City of Tumwater Contributing Staff

Jay Eaton, Public Works Director
John Norman, City Engineer
Dan Smith, Water Resources Program Manager
Steve Craig, Operations Manager
Nhan Vo, Engineer III
Tim Wilson, Water Resources Specialist

HDR Engineering, Inc

Andrew Graham, Project Manager
Jeff Hansen, Lead Engineer

Pacific Groundwater Group

Charles (Pony) Ellingson
Jill Van Hulle

Confluence Engineering Group

Melinda Friedman

Certificate of Engineer

This 2010 Water System Plan for the City of Tumwater has been prepared under the direction of the following Registered Professional Engineer.

Jeffrey M. Hansen, P.E.
HDR Engineering, Inc.
626 Columbia Street NW, Suite 2A
Olympia, WA 98501

Table of Contents

1.	Description of Water System	1-1
1.1	Ownership and Management	1-1
1.2	System Background	1-1
1.3	Inventory of Existing Facilities	1-9
1.4	Related Plans	1-20
	1.4.1 List of Related Plans.....	1-20
	1.4.2 Comments and Responses from Agencies and Adjacent Purveyors ...	1-20
1.5	Existing Service Area and Characteristics.....	1-20
	1.5.1 Zoning and Land Use	1-23
1.6	Future Service Area	1-23
1.7	Service Area Agreements	1-23
1.8	Service Area Policies	1-23
1.9	Neighboring Water Systems.....	1-31
1.10	Satellite Management.....	1-31
1.11	Condition of Service Policies.....	1-31
1.12	Complaints	1-33
1.13	Summary of Plan Recommendations – Chapter 1	1-33
2.	Planning Data and Demand.....	2-1
2.1.	Demographics – Historical and Projected	2-1
2.2.	Water Use Characteristics.....	2-3
	2.2.1. Production, Purchases, and Peaking Factor	2-3
	2.2.2. Customer Categories, Connections, and Consumption.....	2-6
	2.2.3. Water Balance, Non-Revenue, and Leakage	2-9
	2.2.4. Water Use Factors and Equivalent Residential Units	2-10
2.3.	Demand Forecast.....	2-11
	2.3.1. Demand Forecast Methodology.....	2-11
	2.3.2. Demand Forecast Results	2-13
3.	Water Conservation Program	3-1
3.1	Water Use Efficiency Requirements and Compliance Summary	3-1
3.2	Existing Water Conservation Program	3-3
	3.2.1 Conservation Measures.....	3-3
	3.2.2 Estimated Water Savings	3-7
3.3	2010-2015 Water Conservation Program.....	3-8

3.3.1	Conservation Goals	3-8
3.3.2	Conservation Measures.....	3-9
3.3.3	Estimated Water Savings	3-11
4.	System Analysis.....	4-1
4.1	System Design Criteria.....	4-1
4.1.1	Source	4-1
4.1.2	Storage	4-1
4.1.3	Distribution System.....	4-3
4.2	Source Capacity Analysis.....	4-4
4.2.1	Description of Sources.....	4-4
4.2.2	Source Capacity Evaluation.....	4-4
4.3	Storage Capacity Analysis.....	4-7
4.3.1	Description of Storage Facilities	4-7
4.3.2	Storage Capacity Evaluation	4-7
4.4	Distribution System Analysis	4-14
4.4.1	Description of Distribution System.....	4-14
4.4.2	Description of Analysis Approach	4-14
4.4.3	Peak Hour Demand Analysis Results.....	4-17
4.4.4	Fire Flow Analysis Results.....	4-25
5.	Water Resource Analysis	5-1
5.1	Water Rights.....	5-1
5.1.1	Current Water Rights	5-1
5.1.2	Water Right Activity Since Approval of Last Water System Plan.....	5-7
5.1.3	Pending Activity on the City’s Water Rights.....	5-8
5.1.4	Water Rights Summary and Assessment	5-10
5.2	Source of Supply Analysis.....	5-11
5.2.1	Groundwater Supplies	5-11
5.2.2	Water Rights Changes.....	5-11
5.2.3	Water Conservation	5-12
5.2.4	Reclaimed Water	5-12
5.2.5	Interties.....	5-14
5.2.6	Artificial Recharge.....	5-14
5.2.7	Water Treatment.....	5-15
5.3	Water System Reliability.....	5-15
5.3.1	Source Reliability	5-15

5.3.2	Facility Reliability	5-17
5.3.3	Water Shortage Response Planning	5-17
6.	Capital Improvement Program	6-1
6.1	Development of CIP	6-1
6.2	Planned Projects	6-2
6.2.1	Water Supply and Treatment Projects.....	6-7
6.2.2	Water Storage Projects.....	6-9
6.2.3	Booster Pump Station Projects.....	6-9
6.2.4	Water Distribution Piping Projects	6-9
6.2.5	Water System Operations and Maintenance Projects.....	6-11
7.	Financial Plan	7-1
7.1	Past Financial History.....	7-1
7.2	Development of the Financial Plan.....	7-2
7.2.1	Revenue	7-2
7.2.2	Application of Funds	7-3
7.2.3	External Sources of Funds	7-5
7.3	Summary of the Financial Projections.....	7-8
7.4	Reserve Levels.....	7-9
7.5	Review of the City’s Existing Water Rates	7-9
7.6	Overview of Future Water Rates	7-10
7.7	Financial Plan Summary	7-11

Tables

1-1	Pressure Zones.....	1-9
1-2	Existing Well Capacities.....	1-17
1-3	2008 Complaint Summary.....	1-33
2-1	Demographics for Tumwater Retail Service Area.....	2-2
2-2	2006-2008 Average Production (million gallons).....	2-5
2-3	Peaking Factor – Average Month to Maximum Month.....	2-6
2-4	Number of Connections.....	2-7
2-5	2006-2008 Average Water Consumption (million gallons).....	2-7
2-6	Water Balance (2008).....	2-9
2-7	Distribution System Leakage and Non-Revenue Water (million gallons).....	2-10
2-8	Water Use Factors and ERUs (2006-2008 Average).....	2-11
2-9	Demand Forecast (Without Additional Conservation).....	2-14
2-10	Demand Forecast (With Additional Conservation).....	2-15
3-1	Compliance with Water Use Efficiency Rule Requirements.....	3-2
3-2	Existing Conservation Program.....	3-3
3-3	2009 Single Family Tiered Rate Structure.....	3-4
3-4	2009 Multi-Family Tiered Rate Structure.....	3-4
3-5	2010-2015 Water Conservation Program.....	3-10
4-1	Evaluation of Source Adequacy for Total System (and 350 Zone).....	4-5
4-2	Evaluation of Source Adequacy for 454 Zone.....	4-6
4-3	Evaluation of Source Adequacy for 549 Zone.....	4-6
4-4	Summary of Storage Capacity Analysis.....	4-9
4-5	Evaluation of Storage Adequacy for 350 Zone.....	4-10
4-6	Evaluation of Storage Adequacy for 454 Zone.....	4-12
4-7	Evaluation of Storage Adequacy for 549 Zone.....	4-13
4-8	Distribution System Piping.....	4-14
4-9	Calibration Test Data.....	4-16
4-10	Water System Improvements Included for 6-yr (2015) Timeframe.....	4-17
4-11	Additional Water System Improvements Included for 20-yr (2029) Timeframe.....	4-17
4-12	Fire Flow Deficiencies in 2015.....	4-26
4-13	Fire Flow Deficiencies in 2015 with Improvements.....	4-26
5-1.	Authorized Water Rights - City of Tumwater.....	5-2
5-2.	Anticipated Water Right Transfers from Olympia Brewery.....	5-8
5-3.	Water Right Applications.....	5-9
5-4.	Comparison of Water Rights with Projected Needs.....	5-11
5-5.	Potential Near-Term Irrigation Uses of Reclaimed Water in Tumwater.....	5-14
5-6.	Tumwater-Olympia Interties.....	5-16
6-1.	Capital Improvement Program (2010-2029).....	6-3
7-1.	City of Tumwater Water System Financial History (\$000).....	7-1
7-2.	Summary of the City’s Projected Six-year Revenue (000s).....	7-2
7-3.	Summary of Water Capital Improvement Projects (\$000).....	7-5
7-4.	Funding Agency Contacts.....	7-6
7-5.	Summary of the City’s Six-Year Financial Plan (\$000).....	7-8
7-6.	Overview of the City’s Current Monthly Water Rates.....	7-10
7-7.	Projected Rate Adjustments Needed 2010 through 2015.....	7-10

Figures

1-1 Water Facilities Inventory Form 1-3

1-2 Retail Service Area 1-11

1-3 Water System Facilities..... 1-13

1-4 Schematic Profile 1-15

1-5 Service Areas of Adjacent Water Systems 1-21

1-6 Land Use..... 1-25

1-7 Zoning 1-27

1-8 Future Service Area 1-29

2-1 Production by Source (2006–2008) 2-3

2-2 Annual Production (2001–2008) 2-4

2-3 Monthly Production (2006–2008 Average)..... 2-4

2-4 Consumption by Customer Category (2006–2008)..... 2-8

2-5 Demand Forecast Methodology 2-12

2-6 Demand Forecast Summary (Without Conservation)..... 2-16

2-7 Demand Forecast by Sector (ADD Without Conservation) 2-16

3-1 Annual Residential Water Consumption Per Capita, 1997-2008 3-8

3-2 Estimated Savings from Water Conservation Program..... 3-12

4-1 Storage Components 4-2

4-2 2009 Peak Hour Pressure Results 4-19

4-3 2015 Peak Hour Pressure Results with Planned Improvements 4-21

4-4 2029 Peak Hour Pressure Results with Planned Improvements 4-23

4-5 2009 Available Fire Flow Results 4-27

4-6 2015 Available Fire Flow Results without Sapp Rd Improvements..... 4-29

4-7 2015 Available Fire Flow Results with Sapp Rd Improvements..... 4-31

4-8 2029 Available Fire Flow Results with Planned Improvements..... 4-35

5-1. Water Resources 5-3

6-1. Capital Improvement Program 6-5

Appendices

- A. Plan Review Documentation
- B. Service Area Policies
- C. Proposed Satellite System Management Program
- D. Water Rights Documents
- E. Intertie Agreements
- F. Wellhead Protection Program
- G. Water Shortage Response Plan
- H. Water Quality Monitoring Program
- I. Water Quality Monitoring Plans
- J. Operation and Maintenance Plan
- K. Cross-Connection Control Program
- L. Design & Construction Standards
- M. City Water Fund Financial Data
- N. SEPA Checklist and DNS
