

Small Works Roster & Consultant Services

[Municipal Research and Services Center \(MRSC\) Rosters](http://www.mrscrosters.org) is the new online shared Small Public Works Contractor Roster and Consultant Services Roster for local governments in Washington State, including the City of Tumwater, to search for eligible Contractor and Consultant service providers by service category.

The City of Tumwater will no longer maintain a Small Works or Consultant Roster separate from those provided by MRSC.

If you have previously registered your firm on the City of Tumwater's Small Works Roster, you will now need to register with MRSC Rosters.

For Contractors and Consultants:

MRSC Rosters is a convenient and cost-effective way for marketing services to agencies statewide through only one registration process.

Register Now!

Register for the City's Roster by clicking on the links below

- [MRSC – Contractor Registration – Small Works](#)
- [MRSC – Consultant Registration](#)

Operated by the not-for-profit Municipal Research & Services Center of Washington (MRSC), the MRSC Rosters is a fee-based service for all participants charged annually; however, Contractors and Consultants do have a free option to register for individual agency rosters.

Additional Information

What is MRSC Rosters?

MRSC Rosters is an online database for Washington State local government agencies (cities, counties, school districts, and special districts) to solicit work from contractors eligible to bid on small public works projects (projects under \$300,000) and to solicit work from consultants. As a shared roster system, MRSC Rosters provides agencies with access to a current contractor and consultant list, while at the same time allowing contractors and consultants the marketing advantage of reaching multiple agencies through just one roster application process.

Advantages of MRSC Rosters.

- Promotes efficiency in government.
- Provides a single application process for contractors/consultants to register with multiple agencies.
- Allows agencies to share costs.
- Reduces individual agency staff needs.
- Provides access to a much larger pool of contractors/consultants.
- Allows ease of electronic search and notification.
- Promotes more and lower bids from quality contractors/consultants.

How does it work?

1. MRSC accepts and processes electronic applications from contractors and consultants and checks them for compliance with the new mandatory bidder responsibility criteria.
2. Once a contractor/consultant is verified, their account is activated and participating agencies are able to search for a contractor/consultant by service category or alphabetical listing.
3. After generating an email list of potential bidders, the agency can send out a request for proposals.

4. To fulfill Washington State statutory requirements, MRSC will advertise on behalf of all participating agencies in the Daily Journal of Commerce, indicating that they are using the MRSC Rosters.

Who is involved?

There has been great interest in participating in MRSC Rosters. As of July 2010, there are 179 agencies within 26 of Washington State's 39 counties registered to use MRSC Rosters.
