

Herbicide Treatment Business & Residential Notice

Distribution Date: 6/23/07

Barnes Lake will be treated with aquatic herbicide(s) on or between July 15 through October 30, as required. It is anticipated that numerous sprayings will be required during the summer as weather permits.

Product(s) planned for use: Rodeo – Do not apply within ½ mile of an active potable water intake.

Location of Treatment(s): Not to exceed 50% of the lakes littoral zone. Total eradication of fragrant water lily.

Treated and potentially affected areas will be sign posted the day of the application. The signs will describe any water use restrictions or advisories.

If you are withdrawing water for potable or domestic water use, livestock watering, or irrigation, and have no alternate water source, please contact the applicator Northwest Aquatic Eco-Systems at 360-357-3285 or pondweeds@comcast.net to arrange an alternate water supply.

If you would like to request additional notification prior to treatment, or have further questions, please contact me using the information above.

This herbicide treatment is regulated under a permit issued by the Washington State Department of Ecology.
