RE: Tumwater Retail Store

Dear Mr. Beach:

We have completed a 100% inventory and assessment of trees on the proposed 21 acre Tumwater retail site on Littlerock Road in Tumwater, WA. The assessment was completed to meet the requirements of Chapter 16.08 Protection of Trees and Vegetation of the Tumwater Municipal Code. The following is a summary of our findings.

Number of Live Trees >6 inches DBH	434
Number of Unhealthy Trees >6 inches DBH	<u>65</u>
Total Number of Healthy Trees on Site	369

From the 369 trees we have made recommendations for which trees are suitable for retention in this project along with necessary tree protection measures, cultural care, and follow-up maintenance.

Please give me a call if you have further questions.

Respectfully submitted,

Washington Forestry Consultants, Inc.
