Subject: Wal-Mart DSEIS

Hello Roger,

I've read through the DSEIS and have a few concerns that I'm sure will be addressed . . . mainly traffic congestion. One other concern would be that of allowing people to camp in Wal-Mart's parking lot. My concern is two-fold:

(1) We have campgrounds in the area that specifically advertise for campers; thus, Wal-Mart's practice of allowing people to camp on-site for free could affect the bottom-line of local businesses and state parks. I believe there are about seven different campgrounds in or near the Tumwater area that will be affected.

1

(2) I'm also concerned about campers locating so close to Tumwater Middle School. What control measures will be in place to insure safety of our students and residents located nearby. Many of those residents are senior citizens.

2

So, there's my two-cents worth. I'm interested in hearing more about the feedback once you compile it.

Sincerely,

Corinne
