

CHAPTER 2 COMMENT LETTERS, TRANSCRIPT AND RESPONSES

This chapter of the Supplemental Final EIS (SFEIS) contains comments received on the Supplemental Draft EIS (SDEIS) and responses to the comments. A total of 47 letters were received during the comment period and 11 persons commented at the Draft EIS public meeting held on June 12, 2006 (see below for a list of the comment letters and public meeting commentors). Each letter and a summary of the comments from the public meeting are included in this section of the SFEIS. Comment letters/numbers appear in the margins of the letters/transcript commentary and are cross-referenced to the corresponding responses. Responses are provided directly after each letter/the transcript commentary. Expressions of opinions, subjective statements and positions for or against the Proposed Action and Alternatives are acknowledged without further comments.

Chapter 1 of this SFEIS presents summaries of updated and new information and analyses on the Proposed Action and alternatives prepared since publication of the SDEIS.

Chapter 3 of this SFEIS contains an errata sheet providing corrections to the SDEIS, including typographical errors, minor changes and clarifications.
