Total amount of Tumwater lodging tax funds expended: ~~\$17,000.00~~ <sup>16,757.74</sup>

Total amount of lodging tax funds expended from all jurisdictions: \$64,000.00

**DEFINITIONS OF METHODOLOGY FOR QUESTIONS BELOW:**

This methodology is defined by the Joint Legislative Audit and Review Committee and is used for reporting to the Legislature about the use of lodging tax for each jurisdiction.

- **Direct Count:** Actual count of visitors using methods such as paid admissions or registrations, clicker counts at entry points, vehicle counts or number of chairs filled. A direct count may also include information collected directly from businesses, such as hotels, restaurants or tour guides likely to be affected by an event.
- **Indirect Count:** Estimate based on information related to the number of visitors such as raffle tickets sold, redeemed discount certificates, brochures handed out, police requirements for crowd control or visual estimates.
- **Representative Survey:** Information collected directly from individual visitors / participants. A representative survey is a highly structured data collection tool, based on a defined random sample of participants, and the results can be reliably projected to the entire population attending an event and includes margin of error and confidence level.
- **Informal Survey:** Information collected directly from individual visitors or participants in a non-random manner that is not representative of all visitors or participants. Informal survey results cannot be projected to the entire visitor population and provide a limited indicator of attendance because not all participants had an equal chance of being included in the survey.
- **Structured Estimate:** Estimate produced by computing known information related to the event or location. For example, one jurisdiction estimated attendance by dividing the square footage of the event area by the international building code allowance for persons (3 sq. ft.).
- **Other:** (please describe)

<b>OVERALL ATTENDANCE</b>	<i>Enter the total number of people predicted to attend this activity (this number would have been submitted on your application for funds); the actual number of people who attended this activity; and the method used to determine attendance</i>	PREDICTED:	1,500
		ACTUAL (ESTIMATED):	1,730

		ACTUAL (ESTIMATED):	240
	METHODOLOGY (definitions provided above): Representative Survey		
	EXPLAIN TRACKING METHOD: SurveyMonkey		

Please describe any other information that demonstrates the impact of increased tourism attributable to the special event, festival, or tourism-related facility.

We received a constant number of phone calls and emails asking if we could suggest a particular motel that was near to the sport in which they were participating.

**TUMWATER SPECIFIC QUESTIONS:**

Did you experience a higher number of tourists this year? If not, what do you think was a contributing factor?

We experienced approximately the same number of athletes and accompanying family and friends as last year.

Did you complete all of the items on your Scope of Work consistent with your application submitted to the Lodging Tax Advisory Committee? If not, which items do you still need to complete? Do you plan on completing those items with your own resources? If so, when?

We completed all items

Do you plan to do anything differently next year to expand your event, increase tourism to Tumwater, or increase visitors to your facility?

We might consider additional sports, and the use of TV advertising to publize the Games.
